Huge lot of Anysizer Chassis, which have the ability to haul the heaviest of loads.

---

## Repair Truck

Cobra also owns and utilizes a mobile repair truck, allowing us to make the most difficult problems on the road end seamlessly by fixing the problem in a timely manner.

---

## Air Ride Spread Axle Chassis - With Disc Brakes

These chassis are built to the highest standards with safety and driver comfort in mind. Utilizing the lightest materials possible our chassis' are the lightest on the market, insuring all loads are delivered under the maximum weight allowed by the DOT.

The air ride option allows for an insanely smooth ride, while the disc brakes, with state of the art Anti-Lock Brake systems, stop on a dime.

We understand how precious our customers' cargo is along with the safety of our drivers and we take that very serious. We are proud to say our intermodal equipment is some of the best in the country.
